

CrossFit Surfaces™

BOX MAT

by SurfaceCo

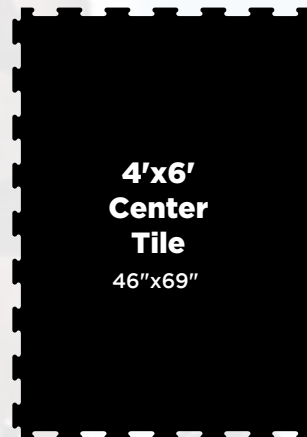

Stop messing with mats that creep around your gym. **The CrossFit Surfaces™ Interlocking Stall Mat** locks together for a stable no-creep fit. Interlocking mats look and perform better.

These mats were originally designed to withstand the weight and punishment of elephants. Seriously. Elephants. With a 18mm (3/4") thickness, these mats are built to last and protect what's above and below them.

Additionally, the **Interlocking Stall Mat** is made from 100% closed cell Re-Vulcanized rubber and will never absorb moisture, bacteria or viruses.

The **Pebble Top** design adds just the right amount of grip and traction for intense workouts. The **Air Channel** bottoms help prevent moisture buildup that can lead to mold and mildew.

The **CrossFit Surfaces™ Interlocking Stall Mat** is built to last, built to be safe, and built to perform.
